

Our Daily Actions for the Environment

Energy :

- The site's signage is powered by renewable energy (solar).
- All our buildings and rental units are equipped with low-energy light bulbs.
- A solar-powered phone charging station is available for your use.

Water:

- Water-saving devices are installed on our taps and showers.
- Toilets are equipped with controlled-flush systems (dual flush).
- We raise staff awareness about water conservation.
- Green spaces are watered moderately, using rainwater collectors.
- Hot water is supplied by solar energy.

Chemicals :

- Detergents are dosed according to the hardness of the water.
- Green spaces are maintained without pesticides.

Responsible Purchasing:

- We only use eco-labelled products.
- We are supplied with green energy.

Waste:

- We sort waste.
- We recycle organic waste through composting.

You Can Help Support Our Efforts

By adopting a few simple actions during your stay with us, you help reduce the impact of human activities on the planet. So, do the right thing!

Energy:

- In the mobile homes, turn off the heating when airing out the rooms.
- Reduce the temperature at night and lower the heating when absent.

Water:

- Please report any leaks.
- Do not let water run unnecessarily.

Chemicals:

- Please use environmentally friendly dishwashing products.

Eco-Friendly Transportation:

- The town center is not far away; try walking.
- Bicycle rental: Maison du Vélo, SNCF station, Place Dorléac.

Waste:

- Please participate in waste sorting — remember to compost.
